MEMORANDUM TO

:

[REDACTED]

25X1A

SUBJECT

:

Telephone conversation with [REDACTED]
on 21 May 1957

25X1A

1. Jim will not be in the office Thursday or Friday but would like for you to call him at home in the evening of either day.

2. He has the following problems:

(a) He received a note from [REDACTED] (RW) dated 29 April 1957, stating that George was proceeding with the C rack modification as described in the note. Jim was away and just received it, and the work described is not what he had in mind. However, it appears that someone else has verbally ordered it. The question is who and what should we do about it. ✓

25X1A

(b) Jim suggests that we get an additional 6 S-band antennas (System 1) for use on System 5. ✓

(c) The status report from [REDACTED] indicated that the first unit fabricated was completely unsatisfactory and wouldn't stand environmental testing. In fact, 12 failures were listed in the report. However, on the cover sheet transmitting the report [REDACTED] stated that the failures have been brought to the attention of all parties concerned and they are in agreement and are taking the necessary action to correct the deficiencies. He felt the situation was under control and required no action by us at this time. ✓

25X1A

3. I advised Jim you would call him on Thursday evening, if possible.
